HANDMADE PHOTOGRAPHY PRINT LAB

Lucetipo is a photographic laboratory that specializes in storytelling through images. We approach wedding photography in a reportage style, aiming to capture an intimate and spontaneous memory with the discretion and delicacy that characterize us. The moments, the emotions experienced, the unique atmosphere of that day, every detail will be captured to create an authentic and vibrant narrative. The couple will be followed step by step throughout the entire event to document every moment of the day, capturing the unique personality of the wedding and its guests.

It all starts with a non-binding meeting with the couple to get to know each other, understand their needs, and any requests better. If they decide to proceed, we'll reserve the date and agree on all the details. The photographs taken on the wedding day will be delivered to the couple as proofs (low resolution, within about 1 month) to allow them to choose their favorites. Once the photographs are selected, we'll proceed with post-production and delivery (digital format or digital format + album) within 3-4 months from the wedding date (indicative maximum period).

Let's get to know each other better.

Marta Palazzetti, the reference photographer and founder of the Lucetipo project, born in 1980. After graduating from the art institute of Perugia with a diploma in architecture, I earned a degree in conservation of cultural heritage. Alongside, I pursued my passion for photography and darkroom development. Upon returning from Ireland, where I worked at the Edmund Ross photography studio, I began experimenting with ancient printing techniques and working on both artistic and commercial photography projects.

WEDDING PHOTOGRAPHY SERVICE

SMART - one photographer for 8/10 hours

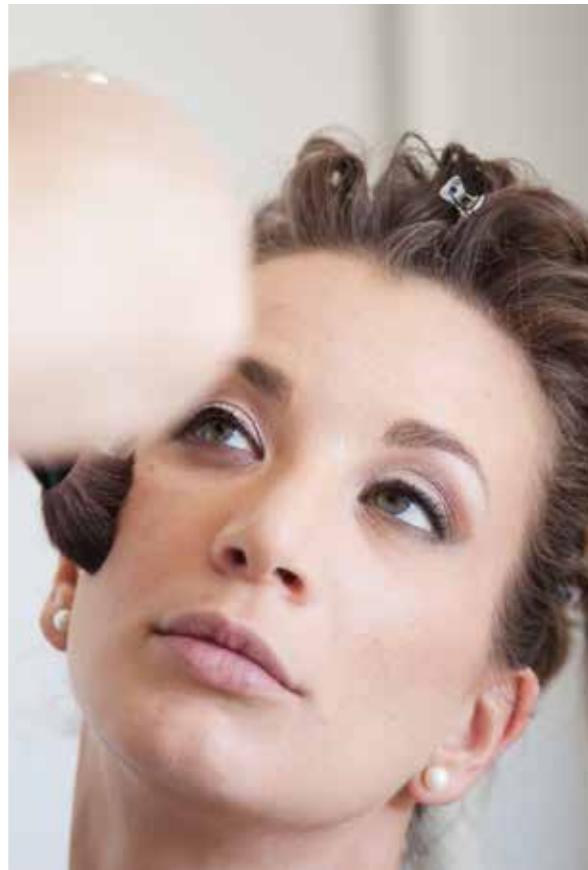

This package includes one photographer who will cover the entire event: bride and groom preparation, ceremony, couple photo shoot, reception, cake cutting, and the party.

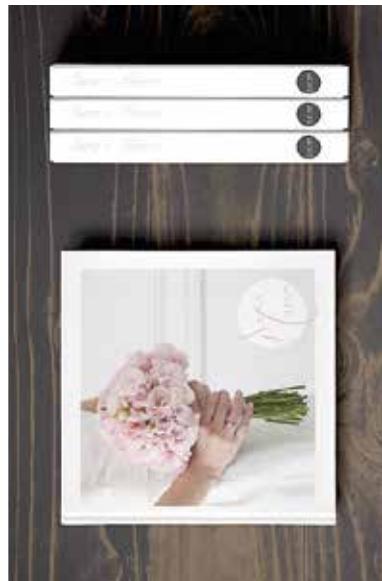

COMPLETE - two photographers for 8/10 hours

A comprehensive wedding photography service with two photographers covering the entire event: bride and groom preparation, ceremony, couple photo shoot, reception, cake cutting, and the party.

Shortly after the wedding day, the couple will receive proofs - all unedited shots in low resolution to choose approximately 150 photos. These selected shots will then be edited and delivered in high quality digital format via WeTransfer download. If the couple chooses, they will also receive a photo album along with the file delivery.

Everything is done with extreme care and love for our work.

The prices listed are intended for the types of offers proposed, are indicative, and may be subject to changes based on the needs and customization of the couple.

WEDDING DESIGN

Lucetipo creates custom graphic designs for weddings. Our task is to interpret the style of the couple and visually represent their story and personality by designing a set of items linked by a common theme and coordinated graphics.

For example, we create:

- Wedding invitations
- Ceremony booklets
- Fans
- Rice cone holders
- Tableau mariage
- Table numbers
- Menus
- Candy buffet signs

The price of the service, which includes design and printing, varies depending on the choice of products and the number of guests. Aesthetics and creativity are what we value the most, and we will consider every request to best fulfill the desires of the couple.

MARTA

Lucetipo it is a specialized laboratory in the creation of handmade photographic prints. It experiments with alternative processes and ancient printing techniques from the era of silver salts.

Working with hands to produce images is a return to the past in terms of values, emotion, and exploration.
